For immediate release

May 29, 2015

Temporary Closure of a Portion of Goldsborough Neck Road between Villa Road and Glebe Road

Notice is hereby given that a portion of Goldsborough Neck Road (see map below) will be closed between Glebe Road and Villa Road for road improvements for approximately four weeks beginning on or about Monday, June 8, 2015. A detour route will be placed on the County's website at www.talbotcountymd.gov and signage will be posted onsite. All vehicles must utilize the detour which will be in place from the intersection of Glebe Road and Goldsborough Neck Road, and Airport Road and Goldsborough Neck Road.

The purpose of the road closure is to repair a section of the roadway which washed out. To repair this section of roadway, twin 48-inch diameter pipes will be replaced with new pipes and concrete headwalls on both the upstream and downstream sides of the road. David A. Bramble, Inc. will be the general contractor for the project.

Should you have any questions regarding the work, please contact Ray Clarke, County Engineer, Talbot County Department of Public Works, at (410) 770-8170.
